

## A Complete Guide to Primordial Black Holes

### Dr. Yuichiro Tada (Nagoya University)

- 2021–now Designated Assistant Professor,  
Nagoya University
- 2018–2021 JSPS PD,  
Nagoya University
- 2017–2018 PD researcher,  
Institute d'Astrophysique de Paris
- 2012–2017 PhD,  
The University of Tokyo

## Abstract

Primordial black holes, the hypothetical black holes preceding the star-formation era, have been attracting attention more and more. In this talk, I'll review why they are fascinating, how we can realise and confirm/falsify them, what they can imply, and where we should go with them.
